# Data

The data are the customs export records of nine Latin American countries at the firm, destination, HS6 product and year level, matched to the ownership records of Orbis and Dun & Bradstreet. The years covered are Argentina 2011–2019, Chile 2009–2022, Colombia 2010–2021, Costa Rica 2010–2019, the Dominican Republic 2012–2019, El Salvador 2006–2018, Paraguay 2012–2020, Peru 2010–2019 and Uruguay 2010–2019.

An exporter found in Orbis or Dun & Bradstreet is a multinational affiliate (MNE). It is a *domestic* MNE when its ultimate parent is located in the exporting country and a *foreign* MNE otherwise; matched exporters without a recorded parent country (7.5 percent of foreign-MNE export value) are counted as foreign. Exporters not found in either database are *local* firms. Sectors are defined on HS chapters: agriculture 01–24, mining and fuels 25–27 and 71, manufacturing 28–97 excluding 71. Each section of this document reports, for one exporting country, where the exports of its multinational affiliates go by parent region and parent country, how much of each parent’s exports goes to the parent’s own country, and the largest export products, for all goods and by sector.
